

Canadian Central Regional Users Group 2008 Networking Event

I'd like to thank everyone for making CCRUG's "Evening of Networking" at the Molson Pub a successful event. We had a good turnout with a good balance of Solid Edge users, NX users, CCRUG Executive and Siemens staff. It was a working event for some of the Siemens technical staff as they were busy demonstrating software and answering questions the whole time. It was great to see Marla (past Chair Person) there with Rowan and a pleasant surprise to see Sandra Chang, our secretary for so many years.

I would like to extend special thanks to Wynne Ann Vardy of Molson's for graciously opening the doors of the Molson Pub for our event. We raised \$280.00 for The United Way throughout the evening. Thanks also go out to Jean Cardenas for administering the registration and name badges, Terry Bergin for supplying the pizza & wings and my lovely wife, Adaline, for organizing the menu and helping me with the general tasks.

Everyone really enjoyed themselves and the expression "annual event" was heard throughout the evening. We look forward to seeing an even bigger turnout next year!!

Thanks again to all.

George Bennett
CCRUG CAM SIG Chair
